Email Report
The Vehicle Recorder Division received a GoPro Seven Black, s/n C328132-5727838.

The micro-SD card was intact and 41 files were retrieved associated with the GoPro camera. 3 videos were related to the accident and are discussed below.

GH017428.mp4: (takeoff)

The video was 2 minutes 40 seconds in duration and began with the aircraft lined up on the runway at Seven Lakes Airport (62GA). The left seat pilot was the sole manipulator of the controls. The right seat pilot rated passenger was preoccupied with filming on a separate handheld GoPro. The airplane departed the airport and climbed out into an area of precipitation as the video ended.

GH017429.mp4: (inflight)

The second video was 4 minutes, 37 seconds in duration. The aircraft was in flight, The left seat pilot was the sole manipulator of the flight controls. Throughout the whole recording the right seat pilot rated passenger was preoccupied with filming footage of himself, while interposing his hand and camera between the left seat pilot's face and the instruments and controls.

GH017430.mp4: (after)
The third video was a one second video, taken after the accident, with a view of the visibly damaged panel and flight instruments positioned much closer to the camera. A discussion was heard, but it was not intelligible.
