NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State time and point of departure, intended destination, and services obtained. Events on flight from Holitna River to Alaskan Adventures Lodge at 36 Holitna River.

I departed the lodge and landed on a gravel bar 15 miles west of the lodge at 16:15, loaded up 3 passengers and 50# of fish. Departed gravel bar at 16:30 and landed at lodge at 16:40. On touchdown airplane felt normal until tail wheel touched and then airplane veered to the right. I stepped on left brake to attempt to hold the airplane on the runway and felt no braking action. Airplane veered off the right side of the strip and came to stop about 15 ft from the runway edge.

I believe tail wheel was slightly cocked and caused aircraft to start to ground loop. Runway conditions along with minimal left brake along with pilot complacency caused the accident. Damage to the aircraft consists of suspected broken elevator mounting points and slight damage to left wing tip.

RECOMMENDATION (How could this accident/incident have been prevented?)
