Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Wings, vertical, horizontal, cowlings, propeller, firewall & fuselage damaged by impact with trees. No damage to private property.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

While operating the aircraft for recreational flight seeing over the Lake Creek area, I realized I was low on fuel. The JPI read 9.5 gallons. I immediately changed course for Wasilla airport to refuel. 10 NM north of Wasilla airport, the engine sputtered and I ran out of fuel. I immediately began to look for a landing site. Directly in front of us was a small private airstrip that I attempted a landing on. The airstrip was perpendicular to our flight path and directly below us. I attempted to land by spiraling down to the runway in a right hand turn for an eastward landing. As I approached the runway, I realized I was too close to the ground to continue the turn for an eastward landing and I pulled up, flaring into the trees at the west end of the runway.
