NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State time and point of departure, intended destination, and services obtained.

Departed pamy @ or Abt 830 pm to location where Accident occurred. To Pick (sour dock) Tundra greens from Around lake. Tide was low and wind were light breeze from South, Southwest at location.

Flew over the intended landing ~~area~~ ^{area} several times to make sure there was no debris of intended landing. Looked at surface for smoothness, I know the landing area was safe to land so I had landed there several times in the previous year. But wanted to make sure I flew over several times as I had not landed there this year. Everything looked good so I made plans to land. Approach to land was good with light winds, full flaps, touch down was good with firm ground, as I was ~~putting flaps~~ ^{putting flaps} up on roll out nose strut folded over and we were upside down. before evacuating the cabin I made sure the passenger was ok, master off, fuel off, open doors, belts off and we were out. once out we got together to make sure we were both ok. made calls to home via sat phone of our situation and location.

RECOMMENDATION (How could this accident/incident have been prevented?)
