☐ In-Flight ☐ Fire at Unknown Time
☒ On-Ground ☐ Unknown

Aircraft Explosion

- ☐ None ☐ Both Ground and In-Flight
☐ In-Flight ☐ Explosion at Unknown Time
☒ On-Ground ☐ Unknown

Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

Landing gear sheared off on impact, engine bay caught fire when aircraft came to a stop. Fire spread throughout plane, destroying the aircraft, 2 rifles, and other misc items. Only the elevators and tail were salvageable.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

The passenger and I departed from Fairbanks, AK at approx. 1 pm. We reviewed a WX report and filed a flight plan with Fairbanks FSS. Our plan was to meet up with our hunting partners in Cold Foot, grab a burger, and continue on to Galbraith Lake. After meeting up in Cold Foot, we departed the airport and followed the road at 3,000 ft AGL. A fellow pilot had recommended that we take the North Fork of the Royokuk river to get across the Brooks Range if the weather was at all questionable. It was a clear blue sky day so we continued to follow the road. I did not think I would be able to reach Fairbanks FSS from Galbraith so I closed the flight plan when I could contact them near KAAR 2 CO. Upon reaching the Chandler Shelf D.O.T. station, we dropped down to 2000 ft AGL to observe their flags for wind, which was calm. We began to climb back up to altitude, headed for Atigun Pass. During the climb, the engine stumbled harshly and I informed the passenger that we were turning around, as I made a left hand turn, the engine stumbled hard again and seemed to stop producing power. We descended quickly, and I tried to make it to the road, but did not make it and we set it down on rocks in the ditch. Shortly thereafter the plane caught fire. Both of us were OK.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

I did not get a chance to pull the carb heat. This may have helped.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)Was there Mechanical Malfunction/Failure? ☐ Yes ☐ No

(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)

Unknown
