**NARRATIVE HISTORY OF FLIGHT** (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State time and point of departure, intended destination, and services obtained.

Departed Delta Junction airport at approx. 9:30am Sept. 7. Flew to East Fork River area on Delta River to look at a possible hunting spot. Observed large river drainage with high brush throughout area. Saw a landing strip and hunters on a 4 wheeler next to strip. From the air the strip appeared wider and longer. Made a normal approach and landed on the strip but too late I realized it was designed for a Super Cub with tundra tires. I hit a bump and it threw me into the brush. The right wheel hit a stump and broke off. The gear dug in and I skidded to a stop. This occurred at approx. 10a.m. Our original plan was to scout the area and return to Delta Junction. At about 2 pm Wright Air Service flew us back to town in their Helio Courier.

**RECOMMENDATION** (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

I didn't exercise cautious judgement. I should have flown over the landing area several times to realize it was too narrow and not designed for a plane w/o tundra tires and numerous bush options. I should have consulted with a pilot also that knew the landing conditions there.
