To whom it may Concern,

On 11/04/2015 the Cessna 180 arrived and the pilot asked for a crew car and left for a couple hours He came back with 3 other passengers the 3 passengers walked out to the plane and the Pilot came in to the office to drop off the car keys. I did ask him if he needed any fuel or if there was anything we can help him with and he said sure if I can get fuel about 10gal I said sure and he told me that if I had someone available to fuel that would be great but if we didn't it was no problem. I did tell him that I would get someone to fuel his plane he said okay and then he walked out and said see you later I responded have a good day. I looked out the window and saw him approaching the plane and he walked around the plane and I did see him open the door and he had the passengers go in the plane and they took off without fuel.
