BURNED AFTER CRASH

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Left Chena Marina on float about 10:15am. My instructor left 5 minutes before me he said he had a weather report and it was fine. It was beautiful sunny day ATIS 1000 to 2000 scattered and broken. Got up in the air, everything was fine heading to Birch Lake. The engine and everything was operating good, then all at once the clouds came in solid white. Total solid cloud everywhere, behind, front, kept flying straight. Pulled down a little and seen trees in fog. Tried to pull up and engine was going to stall. Went in through big trees, good landing the ELT did not go off. Right wing damaged, gas pouring out through wing. Open the doors but the seat belt caught me. Undid the seat belt and jumped through the door and the gas pouring down and gas ignited. I caught on fire. I got burned pretty good. It took five hours for them to find me. Took me to Fairbanks Memorial hospital. I have been recovering since.
