Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

Aircraft was totaled. material & oil were released onto field of Bermuda grass, but were cleaned up by an Environment clean up co.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

Steve Turner left Brawley Airport at approx 10:20 AM. with one of five aerial application load that were to be applied to C Lateral Dis^{ch} 3 and 4. Which is two 70 acre fields of Alfalfa lying E (C-3) and West (C-4)

Steve took the first load of 280 gallons and approx 90 gallons of fuel from Brawley Airport. He flew northeast of Brawley approx 8 miles and applied the first load to C344 flying in an E-W direction. He was flying a race track pattern starting in the middle of the 140ac field and ending his turn on the North end of the 140ac field. This is approx 1/4 mi between existing field to the East and intering on the north going west.

After that load was complete in approx 20 min. he ~~ret~~ went to mayflower strip to get the second load of the five.

He took off from mayflower strip and flew approx 3 miles to C344. He made a pass so of the center going East, pitched out South and started to make his turn around towards the North. At approx 1/2 way through his turn around turn he crashed.

This statement is written by Tony Friley as compiled by statements from Rafe Castro the field spotter which was on the West End of C344.
