

RECORD OF CONVERSATION

Noreen Price
Aviation Accident Investigator
Alaska Regional Office

Date: January 10, 2017 @ 1330
Person Contacted: Mr. Davis, Bethel Airport Manager
NTSB Accident Number: ANC17LA006, N9804J

Narrative:

Mr. Davis is the Bethel Airport manager. During a telephone interview he stated that Bethel Airport does have a foreign object damage (FOD) program and they conduct ramp sweeps and snow removal of air operator (FAR 135 and 121) areas, taxiways and runways. Other ramp areas are serviced by the group that owns or leases, such as the Alaska State Trooper hanger ramp and the U.S. Fish and Wildlife.

The Airport sweepers do record all found items from the sweeps in a log book. There were no oil dipsticks entered in the logbook in the last 3 months.
