Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

The company had been operating tours to the Dog Sled Camp on the Herbert Glacier for most of the afternoon. I was working in the office and was listening to the radio communications and discussions of weather between the camp personnel, pilots, and the operations department. I had seen the most recent airport weather reports and airport weather cameras. I departed for the Dog Sled Camp at 17:43 local time, along with another aircraft, to retrieve passengers at the camp and return to Juneau with them. The flight to the camp was uneventful and approximately 14 minutes. Landed at the Dog Sled Camp and the camp personnel loaded the passengers into the aircraft. The other aircraft had already departed and was a ways down glacier returning to Juneau, when I lifted from the camp. I followed the right side down the glacier maintaining visual reference with the rock wall. Approximately 3/4 mi down glacier from the camp, there is a corner that was fogged in. I couldn't see around the corner, so I was turning around to return to the Dog Sled Camp, slow and turning towards the rocks, when the helicopter impacted the snow. The aircraft stopped inverted with the cabin mostly intact. I attempted to retard the fuel flow control lever, but it was stuck. I pulled the fuel shut off and turned off the main battery power switch. All passengers were able to exit on their own except one, whose seat belt I cut.

RECOMMENDATION (How could this accident/incident have been prevented?)
