Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Departed KWDR climbed to 11500 feet, 45 minutes into the flight the engine sputtered and died. The indicated gages did not indicate overheating or any other problems. Followed emergency procedures to restart engine on placard (switch tanks, at boost) to no avail. Reported Mayday 3 times on frequency 121.5 with no response. Attempted to make it to the closest airport but came up shy. Made an approach on what appeared to be a private road / logging road in the mountains.
