Mr. Glasson:

This letter is in response to Grant Aviation's letter dated May 22, 2018, which formally nominates George W. Curtis to the position of Director of Operations.

Mr. Curtis was evaluated in accordance with the experience rating worksheet in the 8900.1 Volume 2, Chapter 2, Section 3. Our review of his resume and his knowledge regarding the certificate holders manuals, company Operating Specifications and relative provisions of 14 CFR confirmed that he meets the requirements of 14 CFR 119.71. We have no objection to his appointment for Director of Operations.

Operations Specification A006 and A007 have been amended accordingly.

Sincerely,

HUGH
THOMAS
YOUNGERS
