NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

My Name is Joseph Whiting and I was the pilot flying N441GR on August 18, 2018 to Chinitna Bay to take people Bear viewing. After doing a preflight and warming up the plane, I was handed a manifest. After doing a weight and Balance and determined everything was good I met the passengers. After a 60 min flight we arrived at Chinitna bay. At which point I did two passes over the beach to determine it was free of debris and direction of wind for landing. It was a light wind favoring a north landing, so I set up to be first to land. After a stable approach I touched down with the left main first (uphill wheel), the plane slowed down and the right main wheel touched. At that point it felt like I had a flat tire followed by the plane veering to the right and off the beach into the mud flat. After making sure everyone was ok we got the aft cargo door open and everyone exited the plane up the beach. Once everyone seemed to be ok I got ahold of another company pilot to let him know what had happened and he contacted Base to let them know the situation. 2 planes were dispatched to pick up myself and passengers up.
