NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I, Rachel Allsup, was piloting a Cessna 207 for Sperrak Airways on October 11, 2018. I was on a Part 91 reposition flight returning to Merrill Field after delivering cargo to Shirleyville (Nikolai Creek). I had one other employee on board, Edward Munson, accompanying me to help unload cargo.

Over Point Mackenzie my fuel pressure and RPM indicator started to fluctuate. I realized I had forgotten to switch my fuel tanks from left to right and my right tank had run dry. I immediately switched to my left tank. I am unsure if I hit the hi or low boost pump or both. The fuel flow was not fully restored and because of my position directly over Sleeper Strip and my altitude of 700ft, I elected to land. I shut the engine off to increase drag & stop fuel flow and made a power off landing.

On final I hit a tree with my right wing. I landed the airplane and on rollout I went over a soft spot on the strip and my nosewheel collapsed. Shortly afterwards we came to a complete stop. Edward and I exited the aircraft through our respective forward cabin doors.
