Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Right wing mangled, nose gear broke off, fuselage racked.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Was flying up to go hunting in the South Brooks Range, looked for a suitable landing site, saw one ridge, did a slow flight flyover low engine power and flaps in, as I flew over I wasn't paying attention to airspeed, the ridge I flew over graduated in elevation and as I completed my flyover to do a go around, much of my airspeed bled off, I tried to turn left to perform a go around to land, and low airspeed caused my right wing to stall, I was only about 20 feet AGL, right wing touched the ground and cartwheeled the plane.
