NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I was at 3000 feet about 8 miles offshore Indian River scouting for fish when suddenly without any prior indication my engine start shaking bad and a constant loss of RPM's. I pointed to the beach line trying to get closer to land with also getting closer to ocean city municipal Airport. As I made it to the beach line I knew I would not make it to the Airport. I then decided that the safest thing for me and the beach goers was to put it down in the water offshore of the people. The incident happened at 6:15 am and I was in the air for about 3 and a half hours.
