Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

no damage to aircraft or property. Passenger hit head on ceiling and fractured 3 vertebrae requiring neck brace

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Letting down into Anchorage from the west fairly smooth flight with occasional light turbulence. At about 3,500 ft MSL over the mouth of the big Susitna River encountered sharp, severe turbulence for less than 5 seconds, then smooth air again with light occasional turbulence. During the severe turbulence, passenger in center right seat hit head on ceiling creating a cut on top of head and pain in neck. Upon landing 10 min later, she went to hospital to get evaluated. This individual has flown with me often over the preceding 12 years. I inspected aircraft for damage - none found.
