NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Returning from fishing trip. Weather moved in faster than forecasted and icing conditions existed. Temps @ lake were forecasted to be -20/-20. Cabin on lake was not usable. Contacted Radio for weather update and they confirmed the weather was worsening to eventually becoming IFR. I had enough fuel to make PANN (Nenana) plus 20 min. After reaching PANN, I could not get the runway lights to come on. Only the white flashing strobs came on. Unable to land without lights (runway), I made the choice to continue to Fairbanks. I ran out of fuel 10 nm SW of the Fairbanks runway. I had to do an emergency landing in an open field. The aircraft overturned upon landing. I contacted Fairbanks tower on the radio and told them we had just crashed. Gave them my phone # and the coordinates and they called the Troopers who called the rescue center. A Blackhawk came and picked us up.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

This could have been prevented if the runway lights at PANN were operational.
If I had more fuel on board
