NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On 5-28-20 at 10:00 AM ~~on the~~ I attempted a take off on my new Buick private strip (described on the first page). Half way down the strip heading north I encountered a gusting X-wind (approx 15-20 mph). At the time of the X-wind (from the west) I was just starting to lift the wings off the runway. The 20 or so X-wind pushed me to the left (W) and into the trees. Prop marks indicated I was 1 foot off the surface and was able to crawl out the wind screen (broken) and slide down. I did have a little help from three neighbors.

I then found the airplane back to my hangar, approx 160' EAST of the accident.

Sincerely,

[Redacted Signature]
