NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On Monday morning 7/13/2020, I flew an initial flight from Merrill Field in Anchorage, AK looking for a site where I could take friends to later in the day. I landed on a sand bar in the Susitna River and later at an off airport location called the Mud Strip near Upper Lake George, approximately 25 miles east of Palmer, AK. I decided to take them to the Mud Strip and that same day I left Merrill Field at approximately 1740 with 3 passengers. Upon arriving at the Mud Strip I did a low fly-by. I observed a fairly strong right-to-left crosswind, but was confident a safe landing would still be made. The aircraft was stable and aligned with intended landing point on short final and at touchdown. After touchdown, the aircraft began drifting left towards an obstacle. (A large hole to left side of the runway marked with a flag that I had observed that morning.) The obstacle was located approximately halfway down the intended landing surface. Approaching the obstacle, I made a correction to the right with rudder and brake. The aircraft missed the flag, but the left wheel bounced in the right side of the hole and yawed to the right. Shortly later, the left tire and wheel departed the aircraft. Estimated speed was about 35 mph. The aircraft skidded on the gear strut for about 6 or 7 feet, then the left strut failed and the propeller struck the ground. The aircraft came to rest on the left wing, the right tire and the tail wheel facing approximately 180 degrees from the landing direction. When the aircraft stopped, I turned off power and we all exited the right passenger door. There were no injuries to myself or to my passengers.
