NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On July 14th, 2020 while responding to a dispatch on fire 346, FB-208, and FB-210. I was flying FB-210 as a wingman with FB-208 as lead.

On scoop number 28, I touched down, deployed the probes, the aircraft pulled very hard to the right, I immediately released the probes switch, and at the same time inputted full left rudder. My inputs did not counteract the right turning tendency. I pulled the throttle into reverse, at which point the aircraft impacted trees, at the north end of the lake.

I made a radio call to advise my lead of my status, shut the fuel and power off, and egressed the aircraft.
