ITS NOT JUST A TOUR,
ITS AN ADVENTURE
IN PARADISE.

Approximately 80% of Kauai is uninhabited, remote and wild. Come fly with us and experience the incredible history, geology and beauty of the island. Discover the majestic Na Pali Coast. Waimea Canyon, or explore a remote landing at a private location on our Refuge Eco Tour.

With over 40 years of aviation experience, Preston Myers and his pilots at Safari Helicopters have radically changed the helicopter industry in Hawaii through safety and innovation. As a small, family-owned company, we offer you a professional and caring service that is truly unforgettable.

Preston wants Safari passengers to fully enjoy their adventure, but he considers safety of the utmost importance. He holds to the axiom. **"there are old pilots and there are bold pilots, but there are no old, bold pilots,"** and he requires that all his pilots adhere to the same high standards of professionalism that he personally carried out over the years.
