Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Departed AK57 for Rudy's strip with light rain, wind from East (magnetic), and flew at about 500' to Rudy's strip, about 3 nm. Because the wind was fairly strong, I made rectangular pattern to evaluate wind speed. I determined that the speed was about 10 knots, favoring the "NS" shorter but wider runway. The longer but narrower runway crosses the shorter runway about 1/3 the way from the east end of the EW runway, creating an area of potential turbulence when landing. I elected to avoid this turbulence by landing on the shorter NS runway. I approached from the north, over Andy's cabin, at about 65 knots, full flaps, gear down, and touched down about 1/3 to 1/2 way down the runway, noted slippery surface, applied light braking, but became evident that we were going to go beyond the end of the runway. I elected to try and rotate A/C 180 degrees so I could use power to slow our speed. I rotated through about 90+ degrees before A/C hit a 1.5' berm that broke the nose gear and collapsed the right main gear. The right wing spar was bent about 10' outboard, the prop was mildly bent back on one blade, the other two blades sustained mild (nicks) in the tips. We shut down and exited A/C, no injuries. We secured the A/C, called the Juneau NTSB, insurance agent, and family from Andy Varni's satellite phone, and removed the fuel from the A/C.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

Use the EW runway if wind speed is 20knots or more or don't land. Consider widening the NS runway.
