NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On July 31, 2020 at approximately 17:15, on Little Ku Lake (47 NM NE of King Salmon, AK) with myself and 3 passengers on board a Branch River Air Cessna 206 floatplane N9608G I was taxiing for departure, put 10° flaps in, lined up for a full length East departure, and input full power to the engine. I recall the winds being 8-10 kts at 120°m. We got up on to step and I put on additional 10° of flaps in. I recall the opposite shoreline getting uncomfortably closer thinking "why are we not off the water," hitting something, and the next thing I recall is hanging upside down in the seat belts. We exited the plane with one passenger having apparent minor injuries.
