NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Departed TPO at 8:55 to relocate to my private strip. Flew over my strip 1N.M from TPO to check that it was clear. landed to the east shortly after landing while applying brakes my right break went flat at this point there was not enough room to abort so i decided to ride it out. Without the RH break i was unable to keep the plane from pulling to the left due to soft shoulders and was pulled of the left side of the runway where I hit a stump with the RH gear and went up on my nose into the trees. I came to rest on the nose of the plane with the fuselage against the trees. After looking over the aircraft we found that backing plate for the break caliper broke, we found the other piece 300' from the plane on the runway.
