NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Statement from Pilot:

I (Angus Burke) took off from PAEN and flew to PASX. After flying in the pattern at PASX for about 40 minute I flew to ~~5AKG~~ (Kasilof, AK (5KS)) to practice low approaches. I did one low approach without any event. On the second pass I touched my wheels on the unplowed runway. On my third pass I touched my wheels again. This time the wheels caught in the snow which caused the nose wheel to come into contact with the surface. Consequently the nosewheel caught in the snow and folded back. Without the nose wheel and with the forward momentum the aircraft flipped onto it's back. Time of accident was approximately 1550 AKST.

Statement from Kenai Aviation Training Academy (Owner/Operator):

Angus Burke on 2/4/2022 at 1500 AKST took an aircraft and operated it without dispatch approval from Kenai Aviation Training Academy and flew to an airport (Kasilof) which is prohibited by the company for operations in the winter time and also noted in the Chart Supplement to be unmaintained and unmonitored in the winter. The pilot chose to operate the company aircraft outside of the authority of Kenai Aviation Training Academy's operational control policies. The pilot chose to perform touch-and-go landings in a dangerous and reckless manner resulting in substantial damage to N23RB.

Weather conditions played no factor. Company had other aircraft in the air at the time of the accident with no reported environmental factors. The pilot alerted company personnel immediately after the accident.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

Company policies already in place are designed to mitigate an incident of this nature. This accident was caused by the pilots disregard for company policies and good pilot judgement.
