

Memorandum for Record

Dan Morgan
Transportation Disaster Assistance Specialist
National Transportation Safety Board

Date: November 14, 2024
Person Contacted: Ms. Rose Lazear
NTSB Accident Number: ANC23FA003

Narrative:

On November 14, 2024, the parents of the minor occupant of the aircraft contacted me to convey their concerns regarding the nature of the flight in which their child participated. The parents stated that no pre-flight training was provided at the hangar or at the aircraft. They further indicated that there was no mention of the flight being a lesson or involving spiral training. Based on these details, the parents asserted that their child should be regarded as a passenger on the aircraft rather than as a student.
