Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

7GCBC: Prop strike, damaged left and right wings, struts

PA-18: Prop strike, damaged left wing, fuselage

Fuel Tank: Damaged pump

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I planned to fly out to my cabin that afternoon. I pre-heated the plane late morning and I returned to Lake Hood at approximately 1pm and removed wing covers, snow and ice from airplane and did a thorough pre-flight. I taxied to RW-34 from tie-down parking via Lakeshore Taxiway and through the gate, which included first a right turn after the gate, and then a left turn onto H4. After receiving clearance to take off, I began a slow roll into a left turn as I lined up to the centerline of the runway. I continued the roll forward to straighten out, lined up on center and then applied full power for take-off. The airplane suddenly veered to the left - I tried to correct by applying full right rudder, reducing power, and applying full right brake. Unable to correct the left turn and as I approached the side of the runway, I reduced power, applied full brake and unable to reduce sufficient speed as continued down the slope from the runway - still stuck in a left turn - into the taxilane and adjacent parking area. Came to a stop between a parked PA-18 and a fuel trailer, wings impacted, all wreckage together.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

Apply full brake stop upon entering runway from a tight turn and ensuring both tailwheel and brakes are not locked while entering into a longer takeoff roll and lining up. Mixture-off may have reduced speed.
