Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

Aircraft Rolled on the right side. Blades impacted the snow and came to rest.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On May 9TH I was conducting a snow pack water sample survey with 2 passengers. after finishing the first site around Noon, it had started snowing, so we were getting ready to head back to Skwentina. Less than one mile from our first site was a weather station, the owner of the coal mine had asked if I could get some pictures. with the weather station in view we headed up the hill to the get a picture while doing so we encountered a white out conditions. I pulled power and turned to the right, lower terrain and brush for a reference, in doing so my right gear came in contact with the terrain and rolled us over. My front passenger and Myself had only minor cuts to our hands as the front windshield had broke.
