☐ Explosion at Unknown Time
☐ Unknown

Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

Bent Prop, Both wings Bent, Rudder Bent, left struts bent, windscreen Broken.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

was going sightseeing with a friend. Left my home airstrip around 11am on 8-17-23. was going up above lake George and Knik Glacier area. Decided to land on a gravel bar to stretch and get a few pictures. The terrain was gravel and silt and a little rolling. I was rolling out and was just starting to go left to finish my rollout when the plane seemed to want to go to the right. I started to apply my left brake but it was still going right. I believe at a point the left tire had gotten into softer dirt and a little bank that started me to the right. The plane then seemed to go harder right and the left tire dug in and it went on the nose. I thought at one point we would not go over but it sort of teetered and fell on it's back. See attached photo's.

I did get the plane air lifted out. We were taken out by a Black hawk helicopter to Palmer airport and then I contacted the FAA.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

I really Don't know.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No

(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)
