Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Moving a diamond drill. Pilot picked drill shack up as external load using 100ft long-line. Shack covers drill to protect staff from weather. Driller was in corner closest to drill mast to help guide shack clear of mast. Drill helper was in other corner diagonally across from driller. Each corner had a tag line on it. Across roof of shack was attached sheets of plywood to protect staff from weather. Pilot lifted shack so it was clear of drill and started to fly away with it when pilot saw helper was entangled in tag line. He was initially hidden from pilot's view by the plywood covering the roof. Helper was dragged across the rod deck and manged to free himself, falling 6-10 feet to ground beside drill deck.
