Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

- plane flipped over forward landing up-side down.
- no damage to any other property

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Eric and I discussed what the days agenda would be. Performed pre-flight inspection. Let plane warm up and taxi to run up area for Runway 23. I then entered Runway 23, applied power, tail came off ground. Had applied to much right rudder ~~and~~ as plane was slightly going right. I relieved right rudder and plane started left, than more left. In my mind I thought I was pressing right rudder again to correct. Lost directional control and Eric tried to recover. Flipped on edge of runway. Traveled approx. 400 ft.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

Be more cognizant of rudder control.
