NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

Air strip of gravel & dirt, 850' Long, 10' wide. Contact creek
 Air strip. departed at 1700 AK time. During takeoff roll at
 lift off speed the airplane suddenly decelerated just
 as the airplane lifted off the runway. the airplane
 then was not able to increase speed and at that
 time the airplane was approximately 3 ft in the
 air and stalling, the airplane impacted in tundra and
 low willow bushes approximately 30° left of the runway
 and 100' past the end of the airstrip. Post event I
 determined by looking at the tire tracks that
 during the take off that the left main tire
 came into contact with soft raised dirt and
 vegetation on the airstrip edge. This is why the airplane was
 not accelerating. Intended destination 2 miles south
 of Fort Jensen, AK.
