Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

initial observation - damage to right wing

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I was approaching power line pass reporting point at 1050' and waiting for a break in radio chatter to check in with Lake Hood Tower when I encountered severe wake turbulence that I presume was from a heavy aircraft that had landed on Anchorage 15. The aircraft violently dropped, slamming my head into the ceiling. After recovering control of the aircraft, I was able to contact LHD tower and get clearance to continue approach for a west water landing at Lake Hood. Landed without incident. After parking and securing the airplane, I did a thorough check of the plane and discovered damage to the right wing. I called the tower and got a phone number to report what had happened.
