

Record of telephone conversation

Date: 04/25/2025

Time: 0530 AK

I spoke with Lieutenant Fett with the Fairbanks Police Department (FPD) who relayed the following information:

At approximately 0315 FPD received a phone call reporting a possible aircraft accident on Ladd Airfield. Mr. Brian Sipes was seen walking away from an aircraft with injuries consistent with being involved in an accident. Mr. Sipes admitted to emergency personnel that he had been operating the aircraft. The aircraft is a Stinson 108 with damage consistent with impacting a tree. There was an empty open container of alcohol in the aircraft. Mr. Sipes was uncooperative with emergency responders first wanting medical attention then not wanting medical attention. Mr. Sipes smelled of alcohol and appeared to be under the influence. Mr. Sipes was transported to Fairbanks hospital and FPD requested and was granted a warrant for a blood sample to check Mr. Sipes blood alcohol content (BAC). FPD is sending the BAC sample to the state crime lab and expects about a six-week turn around.

Contact information:

FPD Lieutenant Fett – Request using email to communicate with him. He responds promptly. He is also on night shift.

Email: [REDACTED]

Personal Cell: [REDACTED]

FPD Case # FPD25-1389

Gordon Morey Ladd Airfield Manager was also on the scene
