NARRATIVE HISTORY OF FLIGHT (Please type or print in ink.)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

After making one clean landing at the crash spot. I took the fuel bag out of the baggage and put it in the right wing. took back off and came around again to land upon roll out of landing I applied brakes, and with the weight of the baggage the tail came up and I was unable to stop it, causing the plane to nose over onto its back.

OPERATOR/OWNER SAFETY RECOMMENDATION (How could this accident/incident have been prevented?)

I could have not used too much brakes. Also, my lack of time in the plane empty caused me to make a bad judgment and not realizing that with out the weight in the tail I need to be more ~~cautious~~ cautious on use of the brakes.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on a separate sheet.)
