Description of Damage to Aircraft and Other Property (Use additional sheet, if necessary.)

Substantial repairable damage to left and right wings, engine cowling, fuselage, propeller, and top of vertical stabilizer/rudder.
No damage to any other property.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink.)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Departed CA34 (Ala Doble, Espartero CA) in Cessna 140A N9410A at 13:55 ADT on 9/27/2025 for 105NM return flight to home base 1C9 (Frazier Lake Airpark, Hollister CA). Diverted to KLSN (Los Banos Municipal, Los Banos, CA) to make fuel stop. Attempt to land in strong crosswind resulted in a ground loop and overturn at 15:35 ADT, with no injuries to pilot or passenger but substantial repairable damage to the aircraft as indicated above. There was no damage to any other property.

OPERATOR/OWNER SAFETY RECOMMENDATION (How could this accident/incident have been prevented?)

Once the decision was made to divert to KLSN for fuel I did not utilize the available AWOS while enroute, which would have provided me with earlier warning regarding the wind conditions. This likely would have caused me to divert to one of several other available airports with runways more aligned to the wind conditions, resulting in a much better outcome.
