Hi [REDACTED],

[REDACTED] here. We were able to find an account for Mr. Antill, but it appears he had not been actively using ForeFlight for some time prior to the accident.

Additionally, there are no flight plans filled for that aircraft through ForeFlight.

Please let us know if there is anything else we can assist you with.

Best Regards,

For your reference here is the message originally sent to the ForeFlight Pilot Support Team:

Good morning,

Just looking to follow up on the request below. Thank you!

Paul

Subject: NTSB request on N321BA

Good morning,

I just picked up the fatal accident near Nome, Alaska, from around 1520 AKST on 2/6/25 or 0020 UTC (2/7/25). It was N321BA and Cessna 208. Any check of ForeFlight (flight plan or weather briefing) would be great to have. Pilot's name is Chad W. Antill. Have a good day,
