AIR TRAFFIC CONTROL

Group Chair's Factual Report - Attachment 7

ZAN Training and Staffing Documents

September 15, 2025

**U.S. DEPARTMENT OF TRANSPORTATION
FEDERAL AVIATION ADMINISTRATION**

Anchorage Air Route Traffic Control Center (ARTCC)

**ZAN ORDER
3120.1R CHG1**

Effective date:
December 6, 2022

SUBJ: Anchorage ARTCC Technical Training Directive

This order prescribes instructions, standards, and guidance for the administration of air traffic technical training at Anchorage ARTCC (ZAN). All persons involved in air traffic technical training are required to be familiar and comply with this order.

ROBERT C
STEPHENSON

Chapter 1. General Information

1. **Purpose of This Order.** This order, in conjunction with FAA Order (FAAO) 3120.4, establishes procedures for the administration of training at ZAN.
2. **Audience.** This order is for all ZAN personnel.
3. **Where to Find This Order.** This order can be found in the Facility Directives Repository at <https://loa.faa.gov> and in the Watch Desk Library.
4. **What This Order Cancels.** ZAN 3120.1R, Anchorage ARTCC (ZAN) Technical Training, dated April 30, 2021 is cancelled.
5. **Explanation of Policy Changes.** This directive implements the changes required for TEAM implementation.
6. **Effective Date.** December 6, 2022.

Chapter 2. Responsibilities

In addition to the requirements specified in FAAO 3120.4, the following general responsibilities apply to the training programs covered in this order. In the event of an extended absence, a designee must be appointed to ensure continuity.

- 1. Support Manager for Training.** Delegated by the ATM to serve as the Training Administrator (TA).
- 2. Training Specialists and Contract Training Instructors.** Duties:
 - a. Conduct qualification classes and simulation training,
 - b. Review and update curriculum and training materials for classroom and simulation to maintain compliance with national and local directives,
 - c. Assist in the development of and conduct skill enhancement and remedial training,
 - d. Develop and deliver annual proficiency training,
 - e. Formulate and update training syllabi, and
 - f. Assist the TA with other duties as assigned.
- 3. Training Non-Technical Staff, including Contractors (TN).** Duties:
 - a. Coordinate and schedule facility and agency training,
 - b. Represent the facility needs in the annual Call-for-Training,
 - c. Administer the Electronic Learning Management System (eLMS),
 - d. Coordinate management and other training courses,
 - e. Maintain and coordinate new employee facility orientation processes,
 - f. Maintain the local training directive, 3120.1, and forms,
 - g. Prepare and maintain all training files and folders listed in [Chapter 5](#) of this order,
 - h. Maintain the National Training Database and local tracking databases,
 - i. Review training records in TEAM daily to ensure compliance with national and local directives,
 - j. Maintain CIC database,
 - k. Catalog and distribute TEAM training and non-training assignments, and

- I. Assist the TA with other related duties, as assigned.
- 4. Operations Managers (OM) and Traffic Management Officer (TMO). Duties:**
 - a. Review all training documentation for accuracy and completeness, and
 - b. Review, revise, and validate *ZAN Form 3120-CIC, CIC Checklist* and forward requested changes to the TA.
- 5. Operations Supervisors (OS) and Supervisory Traffic Management Coordinator (STMC). Duties:**
 - a. Notify the TA and OM/TMO via email regarding any certification; if the certification involves a pay raise, also notify administration,
 - b. Ensure the TA is immediately notified of a training suspension, pause in training, or assignment of skill enhancement training; to the extent possible, coordinate these actions with the TA prior to taking action,
 - c. Sign Box 8 or Box 10 of instruction/evaluation training forms upon verifying accuracy and completeness,
 - d. Monitor OJTI currency and ensure each is current prior to being assigned respective duties, and
 - e. Ensure each trainee assigned maintains currency on positions for which they are certified and inform the TA of any trainee currency impediments.
- 6. Supervisory Flight Data Communication Specialist (SFDCS).** In addition to OS/STMC tasks a, b, and e, above, the following duties apply:
 - a. Coordinate training activities for assigned employees,
 - b. Supervise Flight Data Communication Specialist (FDCS) OJT and serve as the certifying official,
 - c. Review, review, and validate *ZAN Form 3120-FDCS, FDCS Checklist* on an ongoing basis, and
 - d. Ensure FDCS employees complete all assigned training and documentation.
- 7. On-the-Job Training Instructor (OJTI). Duties:**
 - a. Complete at least one OJT report for each position/combined position by the end of the shift on which OJT occurred,
 - b. Provide the trainee verbal and written feedback by the end of the shift on which OJT occurred, and

- c. Sign each instruction/evaluation form.

8. Trainees.

- a. Sign each instruction/evaluation, performance assessment, and certification skill check form, and
- b. Maintain currency on positions for which they are certified.

Chapter 3. Training Requirements

1. **Facility Training.** All training must be coordinated and scheduled through the TA. Qualification training is conducted in accordance to this chapter and is outlined in [Chapter 4. Qualification and Other Training](#).
2. **Training Team.** The Training Team members and duties must be in accordance to FAAO 3120.4 6-3 and other pertinent sections.
 - a. **Training Plan.** The OS/STMC develops the Training Plan in accordance to FAAO 3120.4 6-4 and must be documented on *ZAN Form 3120-2, Training Plan*.
 - b. **Training Plan Addendum.** Any changes to the Training Plan must be documented by editing the Training Plan.
 - c. **Training Team Meeting.** Training Team Meetings must be conducted at least monthly and documented in TEAM.
 - d. **Qualification Training 70% Completion Review.** When a trainee has used 70% of their allocated OJT target hours on each position, the Training Team must conduct a 70% Review and document the discussion as a Training Team Meeting. A result of the Training Team Meeting must include a determination whether or not training progress is satisfactory. Satisfactory progress is indicated when, in the judgment of the OS/STMC, with input from the OJTIs who are Training Team members, the trainee is likely to certify within the target hours assigned. The OS/STMC must meet with or send an email to the TA to discuss the outcome of each 70% review.
 - e. **Pause of OJT.** OJT may be paused in accordance with FAAO 3120.4 6-6. The OS/STMC, as the Training Team Lead, must document the pause of OJT via memorandum without reference to the extenuating circumstance, and attach the pause-of-OJT memorandum to a Training Team Meeting in TEAM.
3. **Performance Assessment (PA).** PAs must be completed in accordance to the requirements specified in FAAO 3120.4 6-7. When a PA covers multiple positions, the OS/STMC must include all positions in TEAM.
4. **Certification Skill Check (CSC).** CSCs must be completed in accordance with FAAO 3120.4 6-8.
 - a. CSCs must specify when positions are combined by including all positions in TEAM.
 - b. The OS/STMC may designate another OS/STMC to perform the CSC who maintains familiarity or currency on the operational position.

- 5. Supplemental Time.** Supplemental OJT time may be recommended by the OS/STMC, in consultation with the Training Team, in accordance with FAAO 3120.4 6-9.
- 6. Suspension of Training.** Suspension of OJT is an action taken by the OS/STMC to stop a trainee's OJT. OJT may not be suspended without conducting a PA or CSC. The trainee must be notified of the documented performance deficiency(ies) in writing via memorandum. There is no requirement to exhaust target time or supplemental time prior to suspension of OJT. Following a suspension of training, a training review must be conducted. The suspension of training memorandum must be dated and attached to the training review package in TEAM. When a decision to suspend training has been made, the trainee shall continue to work the positions on which they are certified. If the ATM then makes the decision to terminate training, the trainee must not be permitted to work any positions.
- 7. Position Consolidations.** Training may be conducted on routinely-consolidated position configurations as outlined below. When training is conducted on consolidated positions, OJT time must be allocated on the training instruction form based on traffic as determined by the OJTI:
 - a.** High Area: Any combination is authorized for Domestic and Oceanic.
 - b.** North Area: Sectors 3/9, 3/9/13, 3/13, and 9/13; 4/15, 4/15/16, and 15/16, and all combined.
 - c.** South Area: Sectors 5/6, 7/8/14, and 7/14.
 - d.** Combined RADAR Associate and RADAR Positions: Training may occur on combined positions only after the trainee has certified on the respective RADAR Associate position and passed RADAR classroom and simulation training.
- 8. Area Rating.** An Area or Specialty Rating is complete upon certification of all sectors in the assigned Area of Specialization.
- 9. Recertification.** Recertification must be accomplished in accordance with FAAO 3120.4 4-7 and may be accomplished by individual position or a single action covering multiple positions, at the discretion of the OS/STMC. When OJT is required, refer to [Appendix B, OJF and OJT Minimum and Target Time, Category 4](#).
- 10. Refresher Training Plan.** The TA and LSC or other collaborative group will annually prepare a written refresher training plan.
 - a.** The plan must include the requirements in FAAO 3120.4 4-5-b and the following topics:
 - (1) Additional national and service area refresher, supplemental, and non-operational training requirements,
 - (2) Facility training objectives identified in collaboration with Quality Control,
 - (3) Mandatory briefing items distributed by headquarters and the service area,

- (4) Opposite Direction Operations (ODO) [See policy memo ATO-SG-15-07 dated January 1, 2016 from Safety and Technical Training].

b. The plan may be accomplished with any of the following types of training:

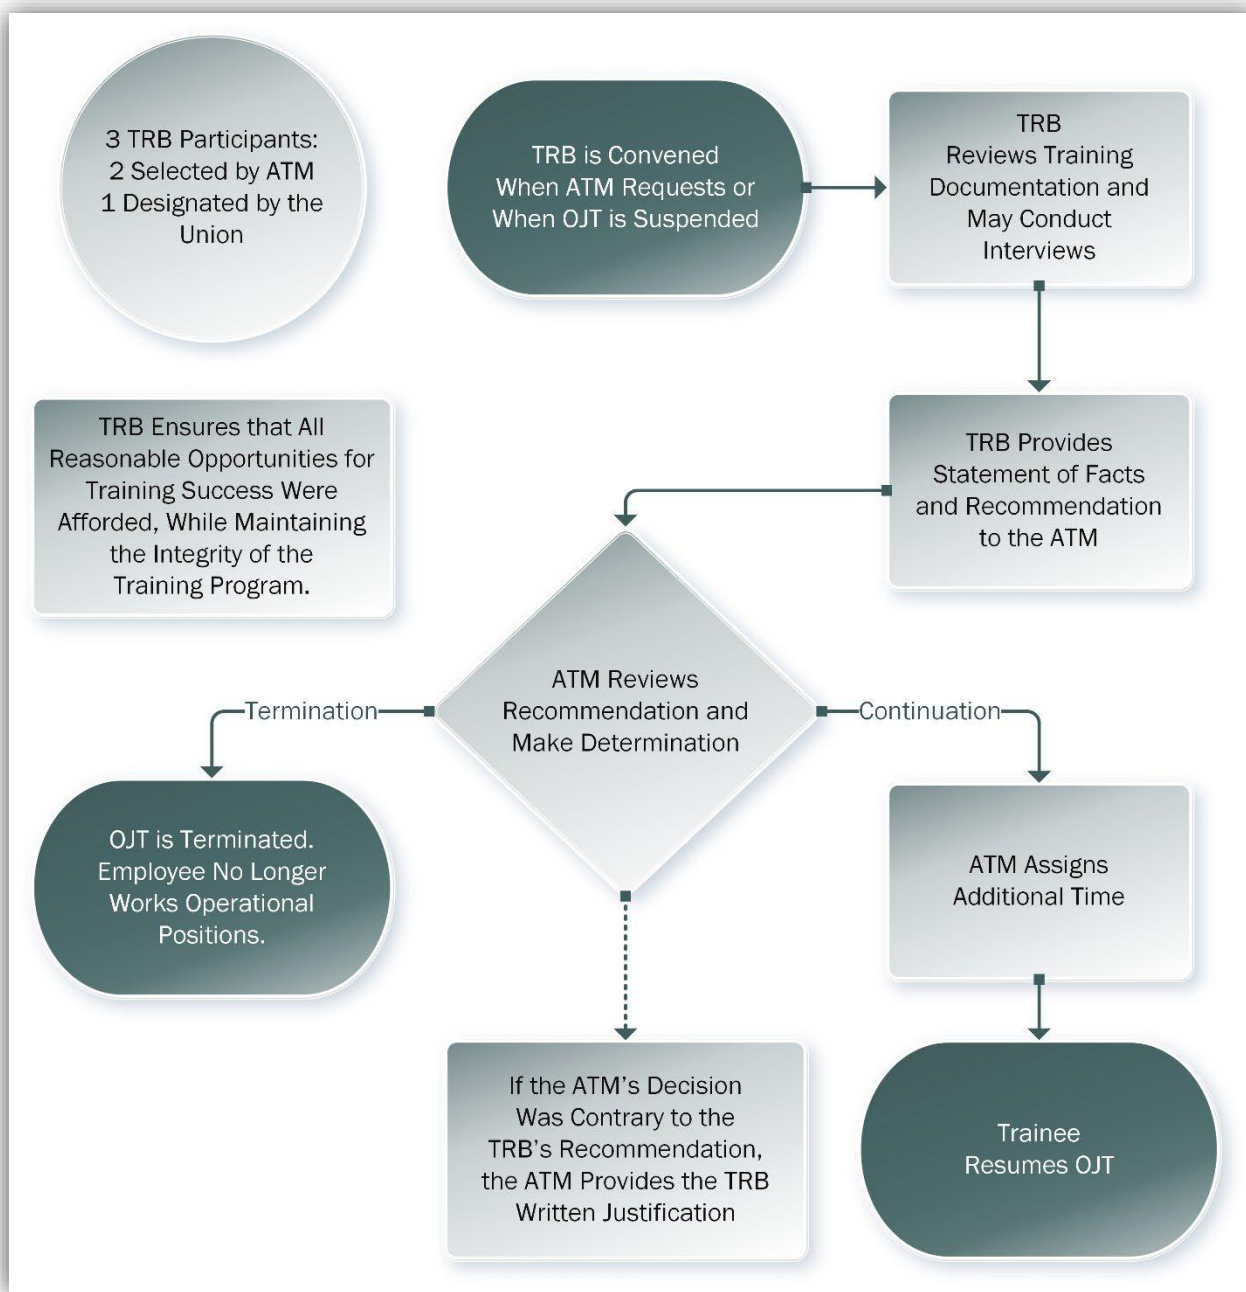

- (1) Verbal and written briefings,
- (2) Classroom instruction,
- (3) CBI and internet-based training,
- (4) Self-study,
- (5) Simulation training, and
- (6) Demonstration and hands-on instruction.

11. Skill Enhancement Training (SET). SET must be in accordance with FAAO 3120.4 4-5.

- a.** Types of SET: Skill Improvement Training (SIT) and Skill Development Training (SDT).
- b.** To request SET, the OS/STMC must use *ZAN Forms 3120-5, Skill Improvement Training* or *3120-6, Skill Development Training* and forward the forms to Training. All requests for SET must be coordinated through the TA as soon as practical.

12. Remedial Training. Remedial Training is conducted in accordance with FAAO 3120.4 4-6. All requests for Remedial Training must be coordinated with the TA as soon as practical. Document the training using *ZAN Form 3120-7, Remedial Training*.

13. Training Review Process. The purpose of the training review process is to ensure that all reasonable opportunities for training success were afforded, while maintaining the integrity of the training program. All trainees must be briefed on the Training Review Process as part of the initial Training Plan. The Training Review Process must be in accordance to FAAO 3120.4 6-11 and FAA/NATCA CBA Article 67 Section 8. Use [*Figure 3-1, Training Review Process*](#) as a reference.

Figure 3-1, Training Review Process

Chapter 4. Qualification and Other Training

1. **Classroom and Qualification Training.** A Training Plan will be provided to each trainee prior to commencing training. The Training Plan for classroom and simulation training will be provided as a syllabus, while the Training Plan for OJT will be documented in TEAM.
 - a. Classroom and simulation hours must not exceed the number of hours indicated in [Appendix A, Trainee Categories and Qualification Training Plan](#).
 - b. Classroom map and written examinations must be proctored by the TA, TN, or another authorized individual.
2. **OJF and OJT Minimum Time and Target Time.** OJF and OJT minimum time and target time are contained in [Appendix B, OJF and OJT Minimum and Target Time](#).
3. **Oceanic Qualification Training.** Oceanic training is administered in accordance with FAAO 3120.4 Appendix F. A localized curriculum must be maintained that provides an outline to comply with national requirements. The simulation scenarios are outlined in [Table 4-2, Oceanic Simulation Scenarios](#).

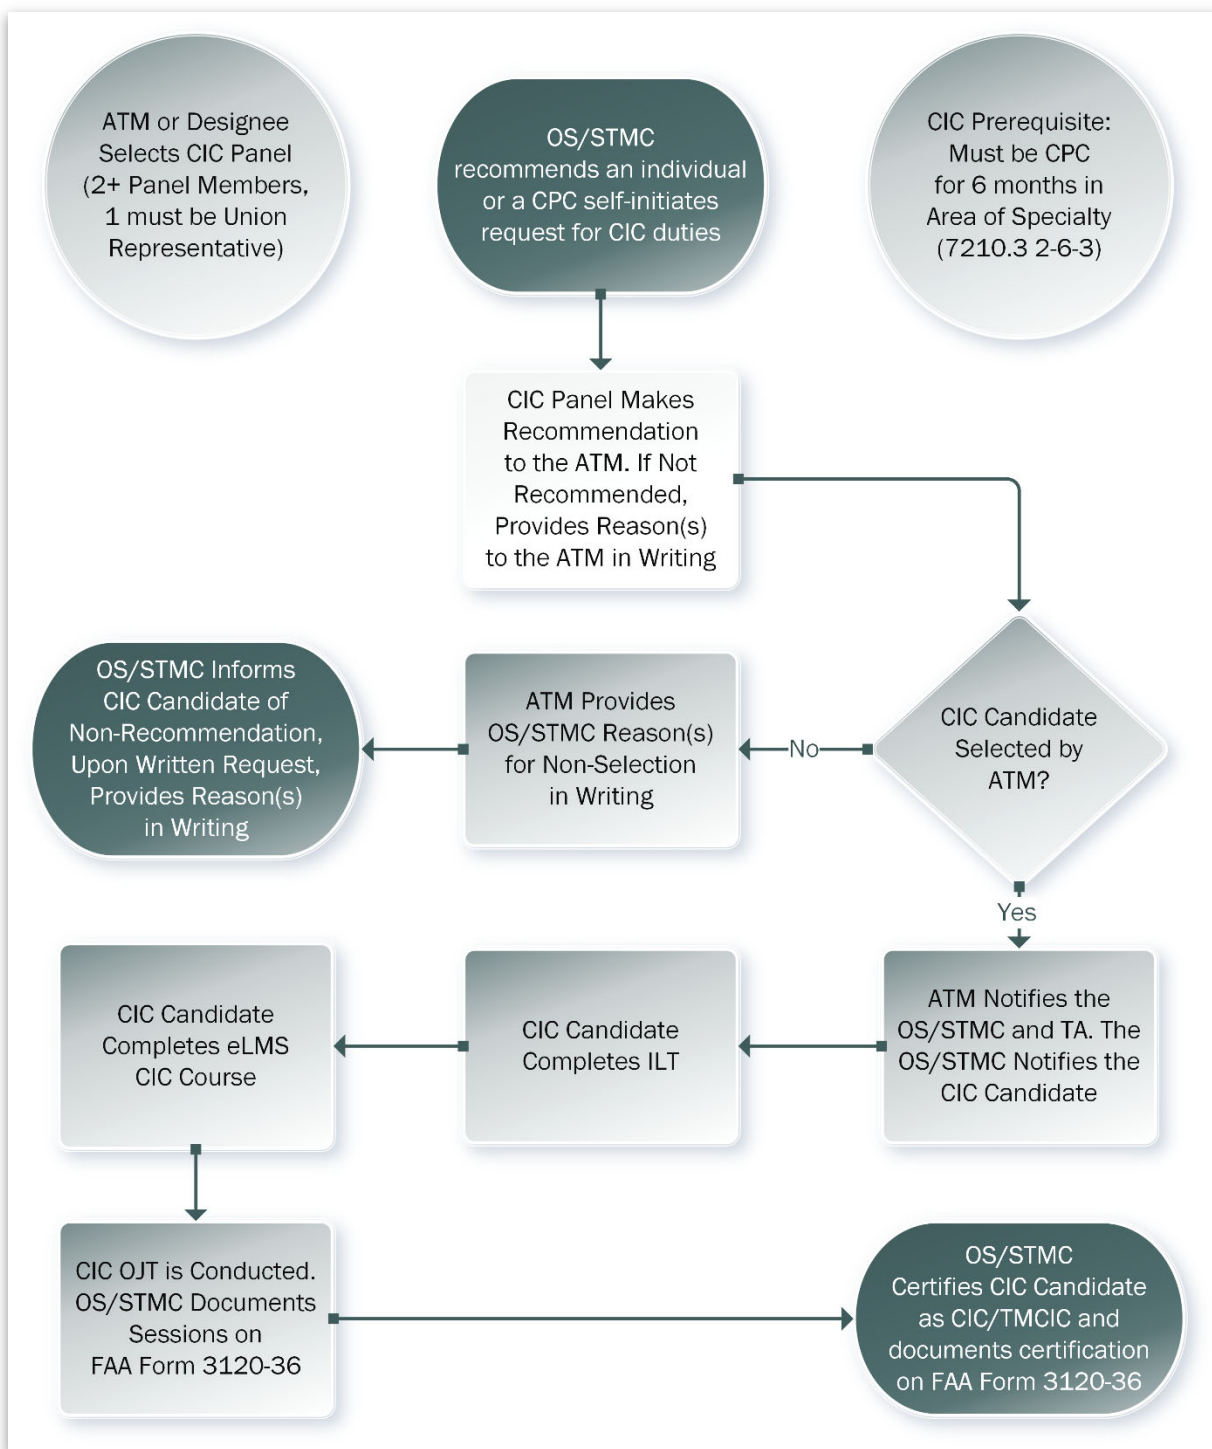

Table 4-2, Oceanic Simulation Scenarios

Scenario	Type	Concentration
ATOP Non-RADAR Strip Familiarization		
1-4	Instructional 1-4	Non-RADAR
FDP Practice Arrivals/Departures		
5-10	Familiarization 1-6	Non-RADAR, Arrivals/Departures
ATOP Arrival/Departure Instructionals		
11-17	Instructional 1-7	Arrivals/Departures
18	Instructional 8, Benchmark 1	Arrivals/Departures
ATOP Instructionals & Evaluations		
19-20	Familiarization 1-2	Sectors 10, 11
21-30	Instructional 1-10	Sectors 10, 11
31	Instructional 10A	Sector 10
32	Instructional 10B, Benchmark 2	Sector 10
33-42	Instructional 11-20	Sectors 10, 11
43	Pre-Evaluation	Sector 11
44	Evaluation	Sector 11

4. **Controller-in-Charge and Traffic Management Coordinator-in-Charge (CIC).** CIC selection and training is conducted in accordance with FAAO 3120.4 Appendix J, FAAO 7210.3 2-6-3, and FAA/NATCA CBA Article 18.

- a.** CIC Panel. The ATM or designee selects at least two individuals to serve on the CIC Panel. One member must be a union representative.
- b.** Selection. Use [*Figure 4-1, CIC Selection and Certification Process*](#) for reference.
 - (1) Either an OS/STMC may recommend an individual or a CPC may initiate a request for CIC duties. The request is forwarded to the CIC Panel.
 - (2) The CIC Panel makes a determination whether to recommend or not recommend a CIC candidate and forwards the recommendation to the ATM and TA. When the CIC Panel does not recommend a CIC candidate, the reason(s) will be provided to the ATM in writing.
 - (3) The ATM makes a determination to select or not select a CIC candidate. When selected, the ATM notifies the OS/STMC and TA. The OS/STMC in turn notifies the CIC candidate of selection. When the ATM does not select a CIC candidate, the reason(s) will be provided to the OS/STMC in writing and the OS/STMC notifies the CIC candidate of non-selection.
 - (4) A CIC candidate who is not selected, upon written request, shall be advised by the OS/STMC of the reason(s) for non-selection.
- c.** Training. CIC training is conducted in two stages:
 - (1) Stage 1. Electronic Learning.
 - (2) Stage 2: Instructor-Led-Training (ILT) and OJT.
 - (a) ILT. Minimum Time: 4 hours. ILT must augment nationally-developed CIC lesson plans with facility-specific training.
 - (b) OJT. Minimum Time: 8 hours; Target Time: 16 hours. Certification in the High Area requires the CIC Candidate to be operationally certified on MEARTS and ATOP.
- d.** Certification. The OS/STMC documents certification on FAA Form 3120-36. After the newly-certified CIC signs the 3120-36, the OS/STMC must notify the TN via email and the TN must update the roster of qualified CICs.

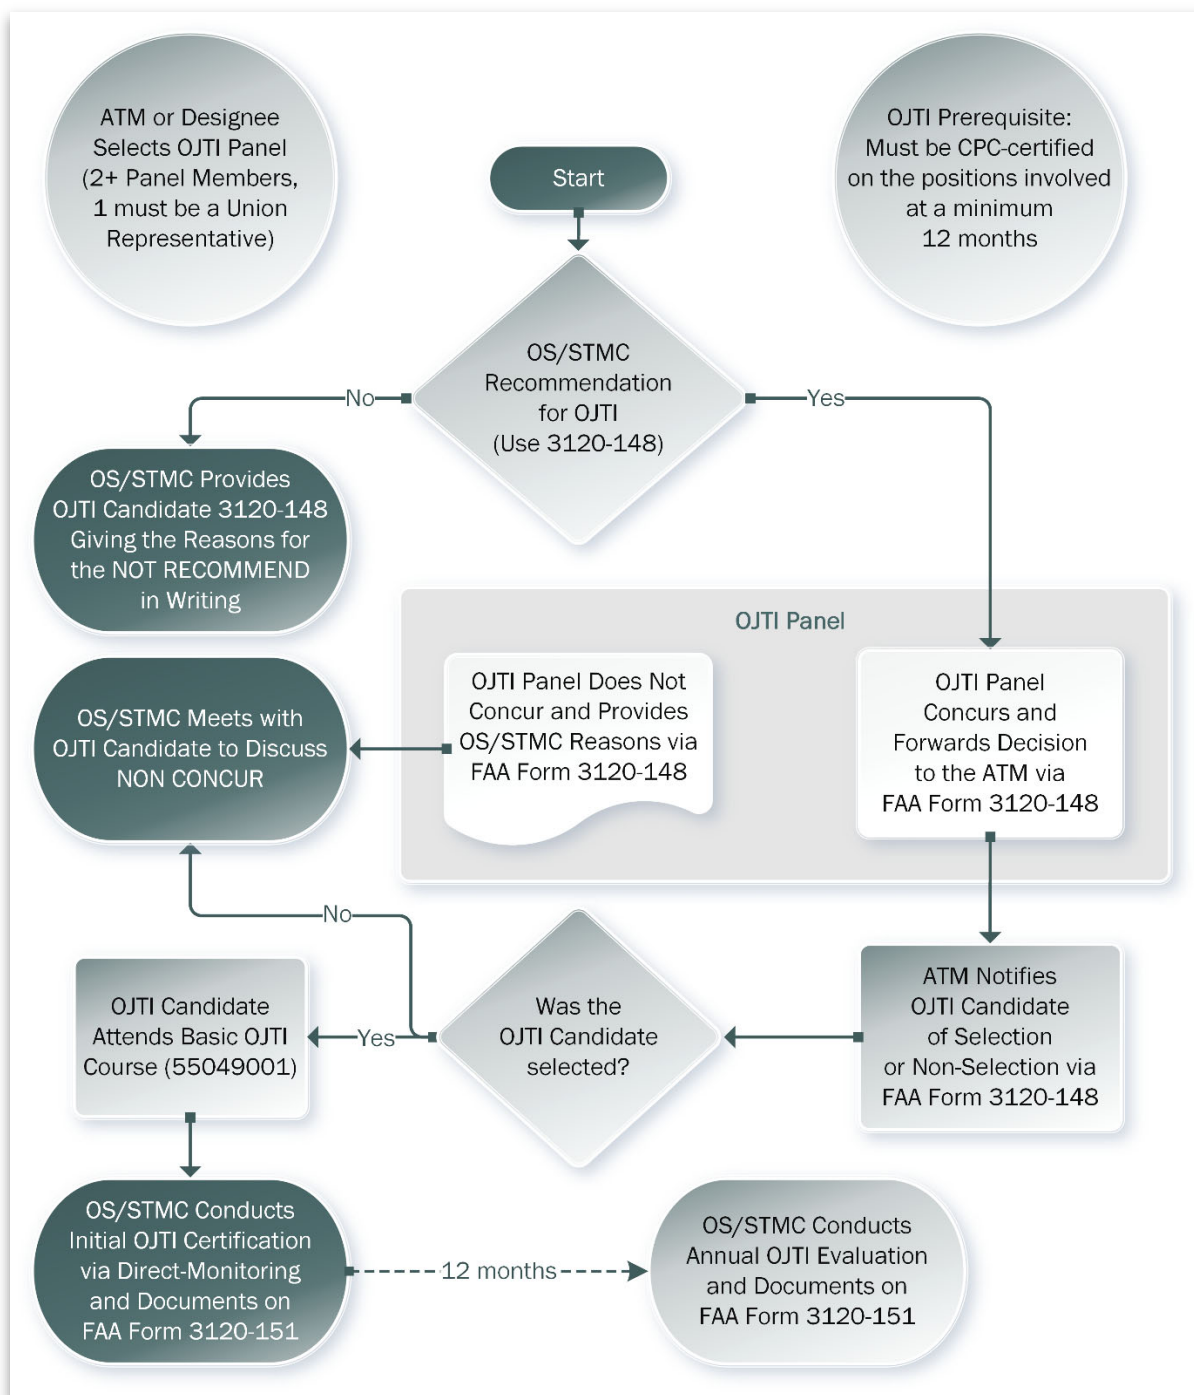

Figure 4-1, CIC Selection and Certification Process

5. **On-the-Job Training Instructor (OJTI).** OJTI selection, training, certification, and evaluations are conducted in accordance with FAAO 3120.4 Chapter 6 and Appendix I and FAA/NATCA CBA Article 68. Use [Figure 4-2, OJTI Selection & Certification Process](#) for reference.

- a. The OJTI Panel forwards their recommendation to the ATM via *FAA Form 3120-148, OJTI Candidate Abilities and Attributes Report*.
- b. The ATM notifies the OJTI candidate of selection or non-selection in writing.

Figure 4-2, OJTI Selection & Certification Process

6. Traffic Management Coordinator (TMC) Qualification and Certification. TMC training is administered in accordance with FAAO 3120.4 Appendix G. The purpose of this training is to provide the Trainee the training to perform independently, under general supervision, all duties in the Traffic Management Unit (TMU) in two stages:

- a. Stage 1. Facility Traffic Management Qualification and Certification (Course 55116). Stage 1 provides the trainee with local orientation and site-specific training and prepares them for OJF, OJT, and certification. Prerequisite is CPC certification at ZAN. Transferring inter-facility personnel must certify on at least two control positions outside TMU. The TA may adjust classroom training and OJT according to experience, as necessary.
 - (1) Classroom Training. Classroom training is divided into twelve lessons, as outlined in the ZAN TMC training syllabus.
 - (2) OJT. OJT is conducted in accordance with FAAO 3120.4. Use *FAA Form 3120-32, TMC Instruction/Evaluation Report* to document training, including OJF, SET, PAs, CSCs, and recertification.
 - (a) Position Consolidations. TMU positions are consolidated in two positions: 1) TMAC, TMDC, TMEC, TMML, TMNC, and TMWC, and 2) TMCIC.
 - (b) Minimum and Target Time. Minimum and target time is displayed in [Table 4-1, TMC Minimum and Target Time \(Hours\)](#).

Table 4-1, TMC Minimum and Target Time (Hours)

Position	Min	Target
TMAC, TMDC, TMEC, TMML, TMNC, TMWC	40	100
TMCIC	6	20

- (3) A11/ANC Familiarization Training. Trainees are required to visit A11/ANC for a minimum of eight hours (four hours each) prior to certification. TMCs are required to visit A11/ANC a minimum of eight hours (four hours each) annually.
 - b. Stage 2. FAA Academy Training, Enhanced Traffic Management Coordinator (ETMC, Course 50115). ETMC is required for TMCs and STMCs within 18 months of accepting a TMU position. Other individuals who need to have a general knowledge of the traffic management system may attend course 50015.
- 7. Operations Supervisor (OS) and Supervisory Traffic Management Coordinator (STMC).** OS/STMC training is conducted in four parts: facility certification, OS Development Program (OSDP), OJT, and additional training.
- a. **Facility Certification.** The OS/STMC is required to be certified as a CPC within the facility.

- (1) In accordance with FAAO 3120.4, personnel transferring to ZAN must certify on at least two control positions within their area of specialty, at least one RADAR and one RADAR associate position.
- (2) The OS/STMC may certify on any RADAR Associate, RADAR, or TMU position, with concurrence of the OM.

b. OS Development Program (OSDP). The OSDP serves as the classroom and familiarization portions of training. The purpose of the OSDP is to enhance the new OS/STMC's understanding of the facility.

- (1) OSDP must be completed prior to certification as an OS/STMC.
- (2) Orientation. The OS/STMC is to become better-oriented with various offices and personnel functions. Training will assist the OS/STMC with scheduling, if requested:
 - (a) ATM,
 - (b) Administrative Office,
 - (c) Training,
 - (d) Quality Control,
 - (e) Plans and Requirements,
 - (f) Airspace and Procedures,
 - (g) OM,
 - (h) Traffic Management Unit and Military Operations,
 - (i) OS Scheduler,
 - (j) OS/OM Mentor, and
 - (k) Technical Operations.
- (3) Mentor. A mentor is assigned to assist the prospective OS/STMC. The mentor may be an OS/STMC or OM/TMO. The mentor provides a portion of Orientation, above. Additionally, training may be requested by the mentor to assist in the success of the new OS/STMC's development.

c. OJT.

- (1) Minimum Time: 16 hours; Target Time: 40 hours.
- (2) Complete *ZAN Form 3120-OS, OS Checklist* prior to OS/STMC certification.

d. Additional Training. Additional training may be required for the OS/STMC, depending on area of specialty or additional duties assigned.

- (1) **High Area Oceanic Training.** To be certified as an OS/STMC in the High Area, the OS/STMC must be previously-rated on the ATOP platform or previously attend the ATOP/OC21 ATSUP course.
- (2) **OM-in-Charge (OMIC) Training.** The OS/STMC must complete *ZAN Form 3120-OMIC, OMIC Checklist* and all applicable area checklists and receive a minimum of 16 hours of familiarization training with an OM prior to being signed on to the OMIC position.
- (3) **Mid-Shift Training.** The certified OS/STMC must complete three objectives prior to working solo on mid-shift operations:
 - (a) Complete OMIC Training, (2) above,
 - (b) Be a High Area-rated OS/STMC or previously attend the ATOP/OC21 ATSUP course, and
 - (c) Receive a minimum of 16 hours of familiarization training with an OS/STMC on the mid-shift.

8. Flight Data Communications Specialist (FDCS). FDCS training is conducted in two phases:

- a.** Phase 1, Classroom Instruction. Training consists of classroom and evaluation and is conducted in accordance with the requirements of Stage 2, RADAR Flight Data in [Appendix A Section 2](#).
- b.** Phase 2, OJT Instruction.
 - (1) OJT must be conducted in the operational environment and supervised by the SFDCS.
 - (2) Instruction must be recorded on ZAN Form 3120-11, FDCS Instruction/Evaluation Report.
 - (3) Minimum Time: 40 hours; Target Time: 80 hours.
 - (4) Skill Enhancement Training (SET). SET may be conducted at the discretion of the TA.

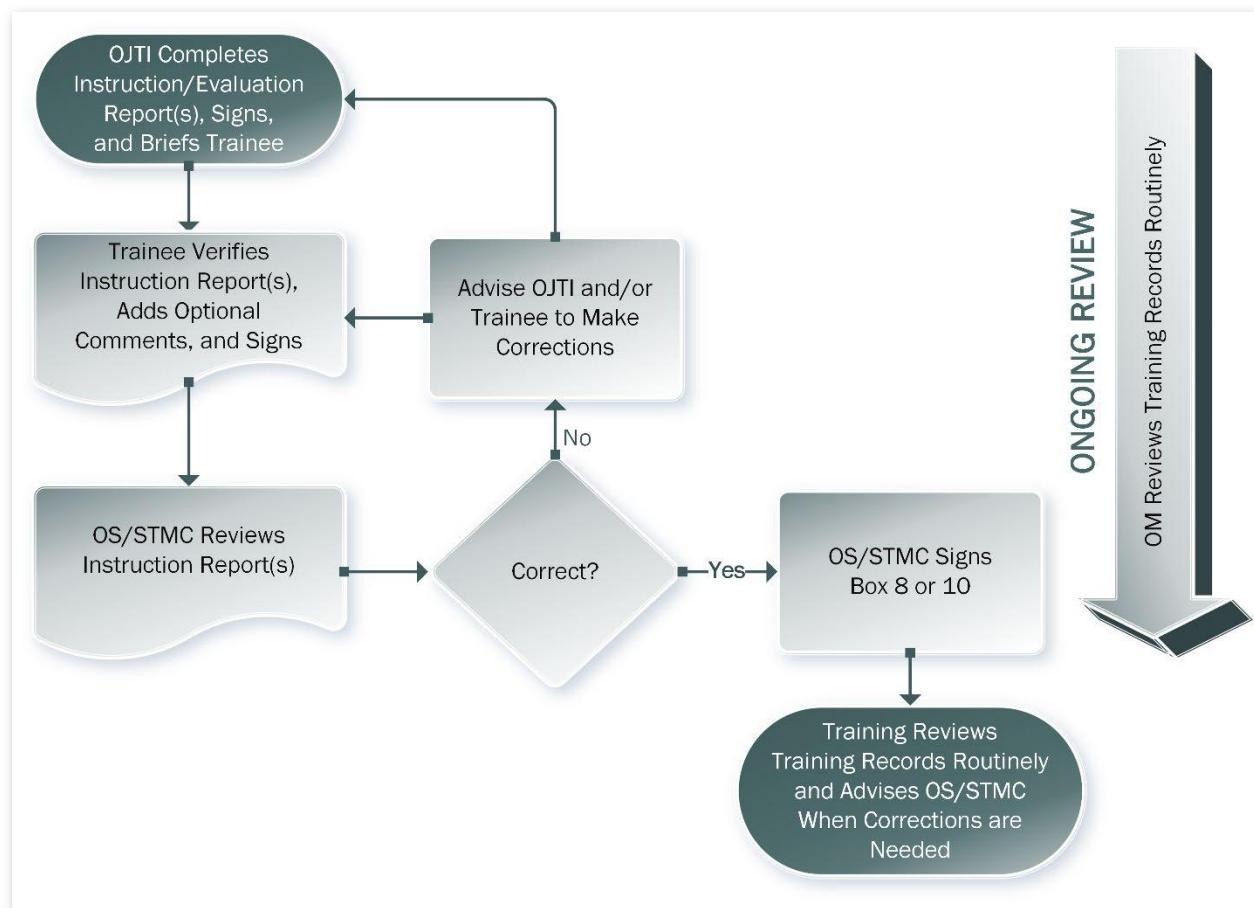

- c. Certification. Certification must be recorded on *ZAN Form 3120-11, FDCS Instruction/Evaluation Report*. Upon FDCS certification, the SFDCS must compile a certification package and forward to Training via the OM, for review. The certification package must include completed *ZAN Forms 3120-10, Position Certification, 3120-11, FDCS Instruction/Evaluation Report*, and *3120-FDCS, FDCS Checklist*.
- 9. Flight Deck Training (FDT).** FDT is considered supplemental training and is accomplished in accordance with FAAO 3120.29.
- a. Procedures and Responsibilities:
 - (1) Participant:
 - (a) Complete eLMS course *FAA6000446, ATO Flight Deck Training* or equivalent within one year prior to the proposed departure date.
 - (b) Visit the FDT program website to review reference documents, including FAAO 3120.29 training objective examples, approved airlines, and airline-specific requirements: <https://atotechtraining.faa.gov/FDTAS/>.
 - (c) Submit *FAA Form 3120-37, Flight Deck Training Request* to their immediate supervisor or designee via the online FDT program website. The request must be submitted with sufficient time to allow the supervisor and TA/TN to review, process, and forward to the FDT Program Management Office (FDT PMO) at least 14 days prior to departure.
 - (2) OS/STMC or Air Traffic Manager (ATM):
 - (a) Complete eLMS courses *FAA6000407, Manager's Guide to the FAA Flight Deck Training Program* and *FAA6000446, ATO Flight Deck Training* or equivalents within one year prior to the proposed departure date.
 - (b) Access the FDT program website to confirm participant eligibility, consider appropriate training length parameters, and make pertinent schedule adjustments in WMT Scheduler or equivalent, including reflecting the FDT request: <https://atotechtraining.faa.gov/FDTAS/>.
 - (c) Complete review of the FDT request by approving or denying the request. If approved, sign and forward to the TA/TN. Ensure the request is submitted with sufficient time to allow the TA/TN to review, process, and forward to the FDT Program Office at least 14 days prior to departure.
 - b. FDT Approval/Denial Process: The participant is provided a briefing by the TA/TN. The TA/TN collaborates with the FDT PMO to assist in the approval of the FDT request.
 - c. FDT Report: Within 14 days of returning from FDT, the participant must submit *FAA Form 3120-40 Flight Deck Training Report* to their supervisor or designee via the online FDT program website: <https://atotechtraining.faa.gov/FDTAS/>.

Chapter 5. Administrative Responsibilities

1. Training Documentation Work Flow.

- (1) The OS/STMC and OM/TMO will review training documentation routinely throughout the training process.
- (2) The OS/STMC is responsible to attach the pertinent forms in TEAM:
 - (a) Training Plan: ZAN Form 3120-
 - (b) Training Team Meetings: pause of OJT memorandum, position checklists, etc.
 - (c) Pause of OJT

Figure 5-1, Training Documentation Work Flow

Appendix A. Trainee Categories and Qualification Training Plan

1. Categories. Trainees are divided into categories based on their air traffic experience. The categories determine the classroom and simulation requirements in the training program.

- a. Category 1. No air traffic experience; Tower certificate.
- b. Category 2. CPC with Terminal RADAR certification.
- c. Category 3. CPC with previous enroute certification or changing area of specialty.
- d. Category 4. Recertifications based on the number of days since loss of currency (31-119 days and 120+ days).

2. Qualification Training Plan. The qualification and certification training program is displayed in [Table A-1, Qualification Training Plan](#). Training plans may be modified by the TA according to the trainee's background and experience.

a. Stage 2, RADAR Flight Data Classroom Training:

- (1) ZAN Airspace Maps,
- (2) Location identifiers, NAVAIDs, airports, airspace classifications, and call signs,
- (3) Classroom E-5s and CBIs,
- (4) Voice Switching and Control System (VSCS),
- (5) Flight Progress Strips,
- (6) Flight Data Processor (FDP),
- (7) Control Pilot Data Link Communications (CPDLC),
- (8) Automated Information Data Coordination (AIDC),
- (9) ATC Automated Information Display (AAID),
- (10) Flight Data: 8 hours OJF in Simulator,
- (11) Weather Coordinator, and
- (12) OJT.

b. Stage 2, Non-RADAR Training: In accordance with [Table A-1, Qualification Training Plan](#).

- c. Stage 2, RADAR Associate Training: In accordance with [Table A-1, Qualification Training Plan](#).
- d. Stage 3, RADAR Training: In accordance with [Table A-1, Qualification Training Plan](#).

Table A-1, Qualification Training Plan

	High	North	South
Stage 2, RADAR Flight Data			
Classroom	Maps, LOAs, Approaches, & Add'l Material		
National Lessons	E-5s and CBIs		
Simulation, Familiarization	8 hours		
OJT	Operations		

Stage 2, Non-RADAR			
Sector-Specific Study	10/11	3	8
Classroom	Maps, LOAs, Approaches, & Add'l Material		
National Lessons	E-7s and E-8s		
Simulation, Instructionals	27	27	27
Simulation, Evaluations	3	3	3

Stage 2, RADAR Associate			
Sector-Specific Study	63	15/16	5
Classroom	Maps, LOAs, Approaches, & Add'l Material		
National Lessons	E-8s

** Classroom and simulation hours are at the discretion of the TA, based on experience and qualifications; for loss of currency, recertification requirements apply.*

- 4. Change in Area of Specialty.** CPCs already certified in an Area who change specialties are grouped in Category 3 in [Table A-2, Classroom and Simulation Training](#):
- a.** Change to any Area.
 - (1) Classroom hours (maximum): 120 hours.
 - (2) Simulation, RADAR Associate familiarization scenarios (maximum): four for two positions, and two for each remaining position.
 - (3) Simulation, RADAR familiarization scenarios (maximum): four for two positions, and two for each remaining position.
 - b.** Change to High Area. In addition to the requirements listed in sub-section (a), above, complete Oceanic Training as detailed in [Chapter 4 Section 4, Oceanic Qualification Training](#).

* Minimum Time is at the discretion of the TA and must be no less than 20 hours on the first two positions, and no less than 8 hours on all remaining positions. CPCs with a former ATOP certification may have lower minimum hours assigned.

** 31-119 days since loss of currency, minimum one hour per position and target hours are assigned as 50% of developmental target hours. 120+ days since loss of currency, minimum four hours per position and target hours are assigned as 100% of developmental target hours.

Appendix C. Remote Pilot Operator (RPO) Qualification and Certification

Introduction. This instructional program guide includes course information for the qualification training and certification of RPOs. This course applies to all personnel training as RPOs, including CPCs, Trainees, and other FAA and contract personnel. All RPOs-in-Training will be referred to as RPO-ITs.

5. RPO Categories.

- a. Category 1. No prior RPO experience; Trainee not certified on the RADAR Flight Data position.
 - b. Category 2. Prior RPO experience; Trainee certified on the RADAR Flight Data position.
 - c. Category 3. CPC; Trainee on at least three RADAR Associate positions.
6. **Stage One: Classroom.** RPO-ITs in Categories 1 through 3 must complete Stage 2, RADAR Flight Data classroom and evaluation training, including ILT, maps, handouts, and VSCS and FDP familiarization.
7. **Stage Two: OJF and OJT.** The TA has the authority to amend OJF and OJT hours, according to the RPO-IT's experience.
- a. OJF. OJF in the Control Room is required for some categories of RPO-ITs, according to [Table C-1, RPO OJF and OJT Time](#).
 - b. OJT. OJT in the simulation lab is mandatory for all RPO-ITs, according to [Table C-1, RPO OJF and OJT Time](#). Each OJT session will be logged on *ZAN Form 3120-46, RPO Instruction/Evaluation Report* or the pertinent contract OJT form.
 - c. Training Plan. A training plan will be developed for each RPO-IT and documented on *ZAN Form 3120-41, RPO Training Plan*.
 - d. PA. PAs may be conducted by the TA at any time during OJT, but is not required.
 - e. CSCs. A CSC is required to determine if the RPO-IT demonstrates the knowledge and skill level necessary to work independently on an RPO position. A CSC may be conducted by the TA any time after minimum time has been reached and must be performed upon exhausting target time.
 - (1) FAA Employees: Document on *ZAN Form 3120-46, RPO Evaluation Form*.
 - (2) Contract Employees: Document on the contractor RPO evaluation form.
 - f. Supplemental Time. Supplemental time may be assigned by the TA.

Table C-1, RPO OJF and OJT Time

Category	OJF (Ops)	OJF (Sim)	Simulation (Number of Scenarios)			
			RADAR Associate Remote		RADAR Remote	
	Min	Min	Min	Target	Min	Target
Category 1	6	4	10	40	10	40
Category 2	4	3	5	20	5	20
Category 3	0	2	2	10	2	10

- g.** Other Training Requirements. RPOs must complete mandatory training topics assigned in a timely manner.
- h.** Training Documentation. Training records of RPOs and RPO-ITs who are not FAA employees must be maintained in the RPO's Training Record.

Appendix D. Local Training Forms
