Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

2 wings damaged, and airframe bent. Broken Prop. No damage to engine.
Landing gear destroyed.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Prior to take-off (rwy 8), I moved fuel selector from LEFT to BOTH. I verified this by visually confirming position.

Unfortunately after not having flown the aircraft for 3 months, I mistook the "handle" for the "indicator", effectively putting the selector in OFF.

After a short period after take-off the engine quit and I was so convinced that the Fuel Selector was in BOTH that I never changed its position.

I tried making it back to the field (4AK6, rwy 26). When close, I determined I was not going to clear the row of trees in front of 26 and made a right turn into a small neighbourhood after determining there was no-one on the road.

I hit the ground, banking right, with the right wing in an attempt to line-up with the road. The aircraft landed hard and sideways due to the impact with the wing. It slid sideways into a ditch where we came to a stop.

OPERATOR/OWNER SAFETY RECOMMENDATION *(How could this accident/incident have been prevented?)*

The accident would have been prevented had I prepared and followed a memory checklist for a situation like this.

Fuel selector would have been the first on this list. In spite of "knowing" that it was in the "BOTH" position I should have changed the position regardless. It is one of the most likely causes of an engine outage.

I now have this mental list firmly prepared

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on a separate sheet.)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No
