PRIVATE PILOT [REDACTED]

passlight AS normal per cessna poh.
everything was working. TAXI to pumps
& Filled up with gas. Sumped tanks AFTER
Fillup. TAXI to Runup AREA & did a
Run-up. All checked normal. TAXI to hold
short line (Runway 35), checked Runway
clear & Radiod (122.8) intentions.
lined up on center line, student
Advanced throttle & we Accelerated.
student pushed fwd on yoke to bring
tail up (it came up). Then we
ground looped to the right.
