

National Transportation Safety Board

Office of Aviation Safety – Central Region

Interview Summary: Tim and Amber Tyler, witness CEN13FA137

Date: 20 Jan, 2013

Location: Accident site; Mangum, OK

Interviewers: Craig Hatch, NTSB IIC

Interviewee: Tim and Amber Tyler, (address) Willow, OK

During the interview, the witnesses stated the following: that they were sitting outside on the tailgate of their pickup. The sound of the airplane made them noticed the airplane flying toward them (north); the airplane had a “low pitch sound”, then it sounded like it “sputtered” , and then the airplane nosed dive, in like a spin. Just before impact with the ground, the airplane appeared to “flattened out”.

They drove over to the accident site and was there within five minutes. Amber stated she was nurse at Jackson County [hospital].
