NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State time and point of departure, intended destination, and services obtained.

Landing west with a south wind, empty. As airplane slowed I applied right rudder then brake, brake was soft so I attempted a go-around, could not maintain directional control and veered into the ditch and embankment to the south.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

I let the airplane slow too much ^{as I was} trying ~~for~~ to get brake response. I feel I should have made the decision to go-around sooner.
