NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State time and point of departure, intended destination, and services obtained.

After complete pre-flight in which no discrepancies were found, the aircraft was taxied to the end of Runway 32. Brakes were set, pre-flight completed, brakes released and take-off roll began into a 5 knot headwind. After about 50' the tail was brought up and the aircraft began a sudden turn to the left. Power was pulled to idle and brakes were immediately applied. Aircraft continued to exit the runway and the left wing struck the ground causing the aircraft to roll and flip onto its' top. Engine stopped during this action. Pilot exited aircraft and called the FBO. -- END --
