NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State time and point of departure, intended destination, and services obtained.

Brian Veatch statement for incident on May 5, 2012. Prior to the flight on May 5, 2014 I had the following: 461.7 Total Time, 127.2 PA-25-235 Pawnee Time, 85.4 Banner towing (including training), 11.7 Banner Training

My license number is [REDACTED]. I hold a commercial pilot airplane single engine land; rotorcraft – helicopter. My limitations are not valid for carriage of persons for hire in airplanes or cross-country flights of more than 50 nautical miles or at night. I hold a second class medical that was completed on April 16, 2014. My limitation is that I must wear corrective lenses.

On May 5th prior to leaving for the airport, I checked the local weather and the start of the Temporary Flight Restriction (TFR) that would go into effect over Coors Field. At approximately 1400 I arrived at 18V Platte Valley Airpark and I checked the local weather and confirmed my weight and balance. I met up with DJ Hernandez, the banner the ground crew, and confirmed with him that I was flying a smaller banner than I had flown with N4519Y before.

I went over to the hanger and did a preflight inspection of N4519Y, a Piper Pawnee PA-25-235. I did a complete walk around looking at all the control surfaces and the operation of the ailerons, flaps, elevator and rudder, I inspected the tow hook, and landing gear. All appeared to be in good working order. I inspected the engine compartment, sumped the fuel and inspected the prop. I checked the oil and added 1 quart and checked the fuel level. The preflight inspection revealed no issues and the aircraft appeared to be in good working order.

At approximately 1500 I taxied the aircraft to the run up area for runway 15 and performed my preflight run up which included a mag check and setting the fuel mixture. I also did my 14 point check:

1. Fuel, 2. Fuses, 3. Master switch, 4. Fuel shut off, 5. Switches, 6. Altimeter, 7. Rt Mag, 8. Lt Mag, 9. Throttle, 10. Mixture, 11. Carb Heat, 12. Flaps, 13. Trim, 14. Wind Direction.

I departed and picked up the banner on the first attempt without any problem. I made a turn to the west and continued to climb toward I-25. I made contact with Denver Approach on 126.1 and requested VFR flight following.

I made my way to I-25 and made a turn towards the South. As I flew south I attempted to maximize my performance by adjusting my mixture and adjusting my flaps one or two notches. As I crossed 120th avenue and I became concerned that the performance was deteriorating and I was not climbing sufficiently so I decided to terminate the flight. Even though the engine appeared to be running normally without vibrations or roughness it felt as though I was losing power and/or performance. Up to this point there was a lot of open space that I was flying over but it started to get congested to the South.

I decided to turn around and headed to the West because of the open fields and better options to should I need to drop the banner. At this point I was now at approximately I-25 and just past 112th Ave. As I made a gentle turn to the west, things started to get worse and I started to loose altitude rapidly. I stopped my turn hoping to decrease my decent rate and I confirmed full throttle but continued to lose altitude. Being familiar with the area, I decided to get over to the open space to the west but quickly I was at a point I had no choice but to release the banner which I did. I expected the aircraft to gain airspeed and climb but I continued to lose power and/or performance. I fought to keep the airplane from stalling but after a short time I crashed into the house.

The right door of the aircraft was open and the ground was approximately five feet below. I released my seat belt and lowered myself to the ground.
