Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I was practicing night flight in the Ann Arbor, Michigan airport pattern; practice consisted of multiple take-offs with full-stop landings and then taxi-back for another takeoff. Impact occurred on the third take-off. I was cleared by tower on runway 6 (same runway as the other preceding take-offs.) For this last take-off I was cleared a few minutes before 8pm. I was accelerating the aircraft and began to rotate the aircraft at about 65kts when I saw a flash of brown in the landing light which was followed by impact. I braked the aircraft to a stop. Due to the aircraft damage I was unable to taxi the aircraft from runway. Because it was dark and the tower was about to close I called the tower via radio as soon as I had stopped the aircraft. I told the tower that I had had an impact and was unable to taxi from the runway. An FBO employee and an instructor that was nearby had heard the aircraft braking and came to the aircraft to determine what happened and to help. The FBO employee quickly assessed the situation and went to get a tug to tow the aircraft from the runway. The impact was caused by a deer running across the runway into the aircraft. Part of the deer was wrapped around the aircraft's nose strut. The aircraft nose wheel pant was broken apart and was on the runway. Because it was dark we couldn't quickly see the status of the runway so the FBO employee and instructor went to inspect the runway after the aircraft had been towed and was clear of the runway. They found large pieces of the deer's body were strewn across the runway.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

I do not think there was any way to see or avoid the deer running into aircraft during take-off at night.
