

The NTSB Investigator In Charge reviewed an audio recording, of the ATC communications between (pilot) N62681 and the (KDPA) control tower controller, that was able on the web.

The following is a text of the audio:

Pilot: Dupage twr 62681Q, 4-5 miles northeast inbound with papa. But have a problem with the rudder, so I'm going to stay out here for a minute.

Twr: just report inbound

Pilot: ? [acknowledgement]

Twr: for the problem with the rudder, do you need any additional assistance, or any thing

Pilot: I don't think so, Just let me play a little bit where, thanks

Twr: Ok, roger

(about a minute and a half later)

Twr: 681 say intentions, lost you on radar, there

Twr: 681 Depage twr
