Martinville, Illinois
August 21, 2015

Interview with Thomas Burnside at Casey Municipal Airport.

On August 21, 2017, I was preparing to fly my aircraft to Decatur from Casey Municipal Airport. His airplane was hangered in the northwest corner of Casey. He observed a grey pickup truck near the center of the taxiway that he usually uses. He did not see any aircraft or activity but a hangar door on the south end of the center row of hangars was opened.

During the on-scene investigation, the NTSB IIC and FAA inspector went to the Casey Airport. The grey truck was identified as the accident pilot's truck and the hangar that was reported opened was the accident pilot's hangar where he stored N8265B.
