Memorandum for the Record
Interview with Pilot's
Nephew
CEN15FA378
Martinville, Illinois
August 21, 2015

Interview Summary with Pilot's Nephew

The Nephew stated that he was not aware of the exact reason for the flight. He did state that the pilot would normally fly early in the morning and circle from Casey Airport to check on his fields. The pilot would take off from Casey Airport and make a big circle. The pilot owned property near the accident site and he would normally fly over the fields and head back to Casey. The Nephew stated that the pilot liked to fly over the property because of the openness and lack of power lines. He stated that he thought that the pilot was in the process of selling the airplane.
